

OBEDIENCE – PRE-KINDY

Judge: Karen Westmacott

STRIVING FOR EXCELLENCE!

The Pre-Kindy Class is for our babies. Pups start here at any stage between 8 weeks and up to 4 ½ months. All the everyday living exercises that a family pet needs, are trained for, and evaluated at the Graduation. All dogs will graduate from this class to the Advanced Pre-Kindy Class where the next exercises are built on this foundation. The dog and handler team needs at least a GOOD in every exercise to know that he has mastered the work,(Q) but even if there is bad luck on the day, or there is a lot more work needed on any aspect,(NQ) our Pre-Kindy dogs will advance to the next level where all the basics are brushed up before being built on, so smooth progress will be ensured. All we need is training! GOOD training leads to good work!
In this class, no points are awarded; everything is graded from Poor, to Good, Very Good or Excellent. The qualifying dog with the most exercises graded excellent, wins!

WALKING ON A LOOSE LEAD FOR 10 PACES. We wish to see the handler walk with his dog in the heel position, leash loose, with a nice loop from collar down, and up to handler's left or right hand. We never lure with food. Luring with the empty hand is permitted. When the dog responds, the handler may mark that response with the event marker of Click, Yes, or Good. Then the handler rewards with food. The lead is loose!

2 SITS, 2 DOWNS, 2 STANDS: For each of these 6 moves, the signal is given with the empty hand, the dog responds, and receives his GOOD and FOOD. Voice command and signal are given simultaneously.

PUPPY RECALL: On the command "Off you Go" or "Go Play" the pup runs ahead and when 3 to 6 metres away, is called . Handlers may call, clap, cheer YES, or GOOD, as soon as the dog responds. Exc for Recall & Present.

PLAY WITH PUPPY: Here we test the play drive, anything goes! Tug of war, retrieve, all is graded.

INDIVIDUAL SIT OR DOWN STAY, lead dropped, at 3m distance for 30 seconds.

In this class Bum Bags are permitted. Ideally the handler will give clear prompts (signals), may lure with the empty hand and mark the correct response. The event marker, Click, YES, or GOOD, precedes the FOOD. FOOD LURES attract a 1 point deduction.

HEEL ON LEAD 18/30 this needs some attention. Although the sits and stands were very good, the down was poor, and the lead was tight during the heelwork. CONTROL AT GATE 8/15 Rex was in a good position for the sit, but the command and signal were not clear. Rex's response was therefore poor, and the timing needs to improve. RECALL 13/15.
