She has very good length of neck, high withers, straight back, the croup is slightly short and slightly steep. She stands correct in front with very good forechest development. Good length of underchest. Good fore and very good hindquarter angulation. The upper arm is a little steep. She steps correct coming and going. During movement, shows a very good ground-covering gait. I would like to see her show herself with a little more exuberance.

4 years 2 months. 59 cms. Above medium size, medium strong bitch of very good type. She has a strong yet still feminine head with good eye colour. Good length of neck, high wither, straight back, the croup is of good lay but slightly short. Stands correct in front with good forechest development. The underchest could be a fraction longer. She has good forequarter angulation where the upper arm is a little steep. Very good hindquarter angulation. Correct coming where the elbows are a little loose, and correct going. She shows a good ground covering gait where the forehand reach could be slightly freer and the hindquarter drive a little more effective.
