

**JUDGE – Mrs Karen Hedberg (NSW)****Judge's Summary Report**

I would like to thank the GSDAWA Club for the invitation to judge your breed show. I found that the level of quality was very good across the whole show with some lovely younger dogs coming through. The baby classes were quite good although slightly mixed in type. The Minor and Puppy Classes were standouts with some very promising youngsters that are the new and up and coming future for your breed. Of note in the younger males were the Puppy dog winners, both of lovely type, by the same sire, both of whom should go on to have great Show careers.

The Junior and Intermediate Classes were somewhat lacking in depth, but this is a 'Covid' affect, where there was limited movement of dogs, let alone semen during the lockdowns. The Open bitch classes were well up to scratch with good depth of quality, which is what one would expect and some truly lovely individuals at the top. The Open LSC dog was impressive and he had some younger progeny to back his Excellent Merit Grading. I was however disappointed in the Open SC Dog class of just 2 as well as the lack of progeny groups to be able to show the virtues of what the newer dogs are producing. Nothing beats seeing the progeny together to get an idea of the similarity in type to the sire, the average height, strength, balance etc.

One sire who had a progeny group listed but was not entered had 4 class winners who were well above average in quality and were very typey to each other despite different dams. Not seeing these progeny together is a loss for all concerned.

As a suggestion to your Club, that while numbers are under or close to 100, you should hold the State Breed Show over 1 day which would enable those puppies and younger stock present to participate in progeny groups. Also, cut the entry time down to 2 weeks prior which enables breeders more time to assess younger puppies and the state of adult coats for exhibition.

In order to get the best out of State Breed Shows, the judge needs to see a broad cross section of the whole breed in order to give the best breeding advice.

My thanks to all the people who assisted in making this a very enjoyable experience.
