

GSDA of WA 35th State Breed Exhibition Barry O'Rourke Memorial

Show Summary and Critiques

Judge Melanie Groth (NSW)

The 2024 GSDA of WA State Breed Exhibition was held at the Club grounds in Southern River. The grounds were in super condition and the ring team set up a conformation ring sized to suit the entry of 49 animals. The weather conditions for the show were very warm with temperatures in the low 30s. For much of the morning the ring was shaded which was welcomed by the puppies and their handlers. With low entries it is difficult to give generalisations about the overall areas for improvement. However, they are much the same as the rest of the nation regarding the angulations of the hindquarter being quite deep on many animals and the curved backlines that have crept into the breed over the last few generations. Most animals were critiqued with very good colour and rich pigmentation and medium strong bone. Eye colour was dark to medium on 99% of animals presented. There were some issues with the shape and firmness of the ears. A small proportion of dogs could have more breadth of skull and more spring of rib. Quite a few animals did not stand correct in front and I critiqued around 80% of animals with slightly deep to deep hindquarter angulations. Many of the youngsters presented with loose hocks with quite a few being cow hocked. This is something breeders need to be careful of. However, I am pleased to say that most of the open animals presented had good hock firmness and were well angulated.

I have provided critiques and photos of the winning open animals in the critiques and congratulate most specifically the Excellent Merit animals who were worthy of their Sieger/Siegerin titles, with Alisha and Uno backing up again from last year's titles; Alisha convincing with her ability to produce high quality progeny with two winning the junior SC classes. With 11 progeny in her first litter and 5 gaining their A and Z stamps this is a quite an achievement and I would hazard to say with no LSCs in her first litter that she probably does not carry the LSC gene; Uno with his excellent performance and pleasing progeny group and results, and Tesla; yet to produce but certainly bred to. Congratulations to the owners and breeders of Freinhaus Tesla, Alisha Team Tomahavk and Wulkano-Uno vom Schnitzerteam for their titles.

It is clear to me the club is in great hands with Robyn Knuckey leading a great team of members who put on an excellent show. I am deeply grateful for the hospitality provided by Kevin and Robyn before during and after the show. Thank you so much to the ring team who worked closely with me. Firstly, thank you to Leanne Irvine my steno who worked tirelessly throughout Saturday and Sunday and post-show editing critiques. To Halina and Andi who stewarded for me and kept things running efficiently thank you also for your assistance. Lee-Anne Shea put together an excellent trophy table for the exhibitors with the red and white theme. To Kevin and Bryan who set up the rings and to those who pitched into assist with the open class bunting putting up and dismantling a huge thank you also. So many pitched in to provide lovely lunches on both days and the canteen seemed to be busy most of the time. It takes a community of people to put these shows on and it does not go unnoticed. Thank you to all of you who helped.

The show was also highlighted by the attendance of ten or so members of the WA Police Dog Squad for two of its canines and their handlers to be acknowledged by Robyn on behalf of the GSDCA. The two dogs gave a brief demonstration for the spectators and this really added to the atmosphere of the show. Thanks to Terry Jarvis the Council's trophy steward, who has been unwell recently, and prepared the trophies for me to bring across from Sydney.

I have prepared a short summary of the sires' and dam progeny to accompany the critiques. Kaster's progeny was too young to make meaningful comments so I have been very brief.

Thank you to the exhibitors for their confidence in nominating me to judge this show and for your subsequent entries. The sportsmanship was outstanding and I enjoyed being with you all throughout the weekend. I look forward to seeing many of you as you make the long trek across the Nullarbor for the 50th National Show and Trial next week. Wishing you all the best.

Melanie Groth

Sires Progeny WA SBE 2024 – Judge Melanie Groth (NSW)

*Wulkano Uno von Schnitzerteam (Imp Hun) IPO2 BSC 'a' Normal
ED Normal

7 years 7 months imported to Australia from Hungary in 2020 and his first pups were registered in December of that year. Silver Medal 2023 49th National. NSW and WA State Sieger in 2023

There are 566 progeny registered in Australia with 20 of his progeny through the Breed Survey Scheme. Ten percent have been presented to the GSDCA HDED Breed Improvement Schemes with 52 A and 56 Z stamps - all Z's normal. The GSDCA Sire Statistics December 2023, record progeny from Uno with mean score of 8.94 for Hips and 100% Normal for Elbows.

A son of the highly regarded Ulkan Maikhus he is linebred on Vegas Haut Mansard (4-3) and Odin Niederforstbach (5-4) and he carries two lines to Quenn Loher Weg on the paternal side of his pedigree. (both Odin and Vegas pictured below)

Odin Niederforstbach

Vegas Haut Mansard

Ixy - Uno's dam

Ulkan - Uno's sire

Uno has been widely used across Australia and has successful highly placed progeny in Both WA and the Eastern States. He has combined well in Western Australia with Schaeferhund Rafael (WA Triple SBE Sieger) daughters.

At the SBE progeny parade this weekend he was represented by 7 progeny that ranged from 6 months to 18 months. There were 2 males and 5 females from 5 different dams. The group presented on the first day of the competition demonstrated good definition between the sex characteristics. They were well coloured with very good pigmentation. Most were of stretched proportions with good forehead angulations where the upper arms could be longer in a few cases, the hindquarter angulations were slightly deep in most cases. Very good bone strength and very good movement, with very good sequence of steps and ground coverage. He is represented this weekend by three open animals; Freinhauf Tesla was the LSC Siegerin

with Excellent Merit 1, and two open SC males Excellent 1 Cheyvvalle Colt and Excellent 2 Grandwest Unos Golden Ace. He finished the show with 6 progeny in the number 1 position. His progeny from this weekend's stock coat Siegerin Alisha Team Tomahavk won both the SC Junior dog and bitch classes. It is clear that Uno produces high quality progeny that exhibit very good character and very good movement. A worthy Sieger this weekend.

*Kasta van Contra (Imp Deu) IPG 3 'a' Normal ED Normal

S Digger v Edelweiss (Goran Bierstadterhof Son)

D Jill van Contra by a Spanish dog Farin 1 De Carrique who goes back to Lorenzo Isidora paternal line and Yasko Farbenspiel on the maternal line.

Kaster has an open pedigree, free from any linebreeding.

Imported to Australia in early 2023 he was exhibited for the first time at the 49th National winning the Gold medal.

Kaster has 76 progeny registered in Australia with his oldest progeny aged 11 months. Therefore, he has no progeny registered on the database for the Breed improvement schemes yet, in Australia. He has had youngsters win at shows in Victoria, Queensland and South Australia.

Kaster has five progeny entered for the 2024 SBE from 2 dams. They showed good bone strength, with good differentiation between the male and the females. Very good colour and pigment with good top and underlines. The upper arms are well angled but could be longer. All the animals presented were slightly deep in their hindquarter angulations. The ear set could be a little more correct in some. It must be understood that this is only a very small sample from Kaster from two litters and they are still very young and yet to develop.

Dam's Progeny

*Sabaranburg Reikki A Z

S *Conbhairean Freddie (Imp UK) a Normal ED Normal

D *Boney M vom Bad Walde (Imp Gmy) a Normal ED Normal

At 4 years she had her first litter to Salvatore Grafenwald and at 6 years was mated to Kaster van Contra. Reikki has 14 progeny registered. Out of the 8 eligible for the Breed Improvement Schemes she has had one bitch Breed Surveyed, Hip and Elbow scored.

Reikki has 5 of her progeny entered at the WA SBE this year and she led her progeny and competed in the show this weekend finishing Excellent 2 in the Open bitch SC class. She looked well and moved well considering her age. Unfortunately, she was not quite as fresh in the hot conditions and lost a place in the competition.

Reikki has had four siblings and two half siblings presented to the HDDED scheme. Three littermates all with AZ and one littermate Breed Surveyed. As a youngster she performed very well, attending two GSDCA National Show and Trials' where she placed 1st from 25 in Minor Puppy in Adelaide and 3rd out of 32 Intermediate bitches. She was represented by an Intermediate LSC female from Salvatore vom Grafenwald; winner of the Intermediate LSC female class and four of her latest litter to Kaster van Contra that are just into the Minor Puppy class all graded Very Promising with one winner; Minor Puppy LSC; and a third and fourth place in the Minor Puppy Bitch class. The group has good bone strength and very good colour and pigment. They are all a little deep in the hindquarters like their mother with good forehands.

3. Mrs R A Spencer	*FREINHAUF TESLA AZ	6100135018
	DOB 25-01-2022	Bred By: Mr K R & Mrs R T Knuckey
	S: Wulkano-Uno Von Schnitzerteam (Imp Hun)	D: Freinhaus Gamble (IID)

2 years 3 months. 61 cm / 30 cm Tooth Cert 10139. Lower right P2 and P3 removed due to trauma. Very large, strong and substantial, very well constructed Long Stock Coat robust female of excellent type. Well coloured and well pigmented with a noble expression and good character. She is presented in outstanding show condition. Tesla has a well-formed head with very good mask and dark eyes, well-shaped ears that are a little large. Strong and powerful neck, high withers, firm back, well moulded croup. Very good fore and hindquarter angulation with broad powerful thighs and very good muscle tone. Pronounced fore and under-chest development. Very good length of foreleg, the elbows are a little open and she should have a little more spring of rib. Stepping correct at rear, she stands and steps not quite correct at front. The hock joints are firm. In movement, she displays strong powerful drive with very good forereach with excellent ligamentation. During the off-lead gaiting, she shows still free flowing movement where the wither could be held just a little higher and the ears just a little firmer. Self-assured to the gun. At just two years and 3 months she has not had the opportunity to present any progeny for this show, however she is exceptionally well bred being sired by this year's WA Sieger Wulkano-Uno von Schnitzerteam and daughter of the very well-bred Freinhaus Gamble; a daughter of dual German Sieger Ballack von der Brucknerallee and the imported Boney-M vom Bad Walde a Landos Quartier Latin daughter. Tesla stands very much in the type of her maternal line. Her pedigree and excellent anatomy suggest that she should produce offspring of very high quality if she is mated to sires with a family history of absolute medium size.

EXCELLENT MERIT

D: Ursa Von Panoniansee

4 Years 6 months. 59.5cm / 28.5cm Double P1 Lower right. Alisha is a well above medium size, medium strong, well pigmented and well coloured black and rich gold female who is very well constructed. She is presented today in very good show condition, dry and firm. She has an alert and noble expression, a well-formed head and very good strength of the upper and lower jaws. Ideally the lips should be just a little tighter. Very good masking and medium eye colour. Large well shaped ears. Good length and lay of neck, the topline has just a slight curve, well moulded croup. The long upper arm is a little steep, with a very good shoulder blade. Just slightly deep hindquarter angulation, with broad powerful thighs. She should stand a little more correct in front. Very good length of foreleg. Good fore-chest and maximum under-chest. Stepping correct at rear, the hock joints should be a little firmer and the elbows should be more closed at front. Good tail length and carriage. In movement, Alisha displays very good power with very good drive and reach, maintaining a very good overline with very good energy and enthusiasm. She was willing, well controlled and presented a very good impression in the off-lead gaiting with very good ground-coverage. She was alert and come throughout the presentation and was indifferent to the gun test. Alisha is a daughter of German VA Spencer di casa Massarelli and stands in his type. The progeny presented this weekend were high performing, with wins in both Junior Stock Coat classes from her only litter to date, by this weekend's stock coat Sieger Wulkano-Uno vom Schnitzerteam. Five of this litter of eleven have all passed the GSDCA Breed Health A and Z stamp schemes. A commendable achievement. Alisha was presented at the Victorian State Breed Exhibition last weekend and was awarded the Siegerin title by Jenny Yuen. She is a high-quality female that has proven she is able to produce animals of high quality with very good breed health and I have no hesitation in awarding her the 2024 Western Australia State Siegerin Title. Congratulations.

Strong head, which is well formed, with a slight roman nose, dark mask, and well-shaped ears that are set just a little low on the skull. He has a strong neck that could be just a little longer, level withers, and a peak in the topline combined with a downward bend in the lumbar spine, and a well moulded steep croup. He has a good forehand where the upper arm should be just a little longer and very good hindquarter angulation. Good fore and just slightly short under-chest. Standing not quite correct in front, he stands and steps with open elbows. Stepping a little narrow at rear with good hock firmness. In movement he displays very good drive and reach, lacking overall balance and the topline curve remains prominent. Royal Logan is very well trained and handled well displaying an excellent off-lead performance and the movement showed good ground coverage. He was calm and alert throughout the assessment and self-assured for the gun test. Royal Logan has 12 registered puppies from two litters, with the first litter at 12 months he is yet to have any go through the GSDCA Breed Improvement schemes.

***WULKANO-UNO VON SCHNITZERTEAM (IMP HUN)MET.NJ.518/16**

DOB 01-09-2016 Bred By: Martin Janos

S: Ulkan Von Maikhus (Ita) **D:** Ixy Van Contra (Hun)

7 years, 7.5 months, 63.5 cm / 28.5cm Above medium size, strong and substantial, well-muscled black and tan male of excellent construction. Presented in very good condition for his age with very good muscular development and overall firmness. Expressive, masculine head with strong upper and lower jaws, showing some age-related wearing on his teeth, dark eyes, dark mask and very good ear set and shape. Uno has a strong powerful neck fitting nicely into a very good flowing topline. He has a very good underline and is stretched in his proportions. Very good fore and hindquarter angulation. Pronounced fore-chest development. Standing correct in front and at rear, he has very good foreleg length. Stepping a little narrow at rear with firm hocks and correct foot placement in front, however the elbows should be a little firmer. In movement, he displays a great love of running with excellent ground coverage and a lot of power. At times during the class he had a slight tendency to high step in the forereach to compensate for the strong rear drive from the hindquarter on the walk and the gait. This was not as evident during the off-lead performance where he displayed excellent control and the same level of firmness as on lead. He has an excellent character and outlook which is also evident in his offspring. Uno was indifferent to the gun test. Given his age and the heat of the day he performed with all the willingness of a young male and was not challenged by the younger dogs behind him today. Uno presented

a young progeny group on Saturday with the oldest just over 17 months, which was uniform in type. He has 20 animals breed surveyed nationally and over 50 progeny have gone through the GSDCA HDED scheme. Uno has been utilised well in the Eastern states of Australia. He has already presented two progeny groups at the GSDCA National Show and Trial and will present another one in a week at the 50th National in Adelaide represented by 31 progeny. He is a very good sire in his own right, cementing the invaluable producing line of Ulkan Maikhus. He has been graded Excellent Merit and Sieger several times at State Breed Shows in NSW and WA and Vice Sieger in Victoria. Uno is the ultimate package, combining medium size with anatomy and producing qualities, with two males graded excellent behind him in this class, five winners on Saturday in the young classes and the sire of the 2024 LSC WA female Siegerin, Tesla. Congratulations to the 2024 Western Australia State Sieger, held in the memory of the show's founder, Barry O'Rourke.

EXCELLENT MERIT

DOB 16-06-2021 Bred By: D J Auguste
S: Wulkano-Uno Von Schnitzerteam (Imp Hun) **D:** Chevyvale Irresistibly Devine

2 Years 10 months, 65 cm / 30 cm All P1's upper and lower could be slightly more prominent, dropped lower incisors 1/1. Large, strong and substantial richly coloured and pigment black and tan male of excellent type. Quite sire typical however much more richly pigmented, slightly elongated in his proportions. He presents a pleasing picture in stance. Colt has a strong masculine head with very good masking and medium-coloured eyes. The tips of the rather large ears roll back slightly and are just a little infirm. The lips are slightly loose. Strong, powerful neck, which is set slightly erect in stance, but carried well in movement. High withers, slight peak in the firm topline, well moulded slightly steep croup. Very good fore and just slightly deep hindquarter angulation. Very good fore and pronounced lower chest depth. Stands and steps correct in front. The tail is slightly long. He stands and steps slightly narrow where the hocks should be firmer. In movement he displays very good ground coverage with strong powerful drive and very good forereach maintaining a very good wither line. In the off-lead gaiting he shows a slight restriction in the forereach and slight infirmness in the ligamentation of the forehand. He was calm and alert throughout the assessment and class and was self-assured for the gun test. Colt is a young sire with 46 registrations in the GSDCA database and his oldest progeny were a year old in March. He has one progeny through the hip and elbow scheme. Five progeny were presented with one winner in the Minor Puppy SC Dog Class. The progeny at this show were above average and displayed some of Colt's quality characteristics. A son of this year's Sieger he convincingly held the Excellent 1 position today. Congratulations.

3rd 49. Mrs C Willis ***GRANDWEST UNOS GOLDEN ACE AZ VG** 6100130236
DOB 16-12-2021 Bred By: D & C Willis
S: Wulkano-Uno Von Schnitzerteam (Imp Hun) **D:** Aimsway Ripepi Bsc1.1 Az

2 Years 4 months, 64 cm / 31 cm Mis-alignment of lower middle incisors. A son of today's Sieger, Uno's Golden Ace is a well above medium size, medium strong black and tan male of good type. Slightly stretched in his proportions. He is dry and firm. Good head and expression with dark mask and good eye colour. Good ear set. Ideally the bones should be stronger overall. Good length of neck, level withers, slight peak in the topline with a downward bend in the lumbar region. Slightly steep well moulded croup. Good fore and very good hindquarter angulation. Stands correct in front. Good fore and just slightly short under-chest. Stepping very narrow at rear and at front and the elbows should be tighter. In movement, Uno's Golden Ace shows very good ground coverage with very good drive and reach maintaining a high wither. In the off-lead performance, he was very well controlled and maintained a very good wither line. He was calm and alert throughout the presentation and self-assured during the gun test. A good, honest excellent dog.
